THE STORM'S EFFECT

Great Damage Done on New England Coast.

THIRTY VESSELS SUNK AT BOSTON.

Twelve Lives Lost-Nine Vessels at Salem Wrecked-Three at Belfast. Long Island Traffic Stopped. Suburban Trains Blocked.

BOSTON, Nov. 28.—The belief in the well known safety of Boston harbor was rudely shaken by the terrific blizzard of Saturday night and yesterday morning, for its usual placid waters proved anything but a harbor of refuge for a dozen or more of the coasting vessels, while one great ocean steamer, the Ohio of the Wilson line, was torn from her moorings and driven high and dry on Spectacle Island. Schooners and coal barges with two hawsers out and every reason to expect a safe weathering of the gale, were dragged from their moorings and hurled against pier heads, dashed on islands and rocks or sunk outright. It will take many hours to make a complete list of the casualties arising from the storm in Boston harbor alone, but from the present indications it certainly looks as though it might be a long one.

It is thought that at least 30 barges and schooners lying in the harbor were wrecked and sunk and fully 12 lives

A partial summary of the casualties is as follows:

Steamship Ohio of the Wilson line, beached high and dry on Spectacle island; ocean tug Tamaqua of the Philadelphia and Reading railroad, beached on Rainsford island; four masted schooner John S. Ames, ashore at Fort Warren; schooner Virginia, supposed to belong in Mount Desert Ferry, Me., sunk off Thompson's island, two men reported lost; barge No. 4, owned by the Consol'dated Coal company, foundered off Boston light, four of crew drowned: barge No. 1, owned by same concern, missing, supposed to be lost, with a crew of four men; schooner Charles A. White, stranded near the Ohio, on Spectacle island; schooners Albert H. Harding of Boston, Multinomah of New London. W. H. Y. Hackett of Boston and Hume of Rockland, Me.: sloop Startle of Boston, coal barges H. A. Hargood, Iron City and Charles Foster, all from Quebec, ashore at different points along light station at South Boston.

Four schooners are ashore at Moon island head, three schooners are beached on Thompson's Island and sadly dismantled and two large coal barges of the Staples Coal company of Taunton, in tow of an ocean tug, are ashore on Gallop's island.

KILLED BY A SNOWPLOW.

Two Men Lose Their Lives as a Resuit of the Storm.

SOUTH BERWICK, Me., Nov. 28 .-Harley Bates and Fred Hallway, aged 34 and 22 years, an engineer and fireman. respectively, both residents of Portland, lost their lives while at their post of duty on engine No. 12 on the western division of the Boston and Maine railroad yesterday afternoon.

The locomotive left Portland yesterday merning for Exeter, for the purpose of clearing the track of the vast amount of heavy snow that had fallen during the night. A heavy plow was being pushed through the snow, and until the train reached South Berwick yesterday afternoon the trip was uneventful. Upon reaching Hobbs' bridge the plow left the irons, and the engine followed, going up an embankment. The plow tipped over onto the cab, and Engineer Bates and Fireman Hallway were crushed against the boiler head

Long Island Traffic Stopped.

NEW YORK, Nov. 28 .- The entire east end of Long Island is cut off by the sorm, and no communication has been had with the middle of the island since Saturday night. All telegraph wires are down, including those of the Long Island railroad. Superintendent Potter of the Long Island railroad says he has not heard anything from any point along the line of his road since Saturday. Yesterday for the first time in the history of the road the North Shore division of the road was blocked. Trains were got through as far as Far Rockaway. The central line train, however, met a 20 foot snowdrift one mile east of Hicksville, into which the snowplow stuck its nose and stopped, being unable to either proceed or back out. The engineer tried to back the train to H cksville, but the snow had blown onto the track in such quantities that he was unable to do so, and sleighs were procured to take the passengers to

Nine Schooners Ashore. SALEM, Mass., Nov. 28 -The terrific northeast snowstorm caused a complete suspension of all kinds of traffic in this vicinity, and nine schooners of the coasting fleet which arrived late Saturday afternoon have gone ashore. The tremendous tide washed out the Boston and Maine tracks between this city and Beverly and flooded the power house of the Lynn and Boston road, so that it will probably be a number of days before the cars will have power to run. In the harbor the water is covered with wreckage, and of the vessels in dist, ess the W. H. DeWitt, Captain Harrington, of New Castle, Me., bound for Damariscotta, will be a total loss. Among the other schooners ashore are the Agnes Mary, bound from Boston for St John; the Evelyn, for the same port, and the Ellis P. Rogers, bound for

Storms in France and Italy. PARIS, Nov. 28 - During the last 48 hours storms, increasing in severity, have raced throughout southern Fr n w and northern Ita'y. Nuch damage has been done at Marzeides, Cannes. Sam

sea walls and sea fronts have suffered especially. At Genoa the German cruiser Hertha, one of the convoy warships during Emperor William's recent trip to Palestine, broke her moorings and collided with the Italian mail steamer Scilla, both vessels being slightly damaged. Several other small casualties are reported.

Philadelphia Suffers.

PHILADELPHIA, Nov. 28.-The blizsard reached this city at 11 o'clock Satorday morning and raged furiously un-til 1 o'clock yesterday morning. As unexpected as it was violent, it wrought great havoc not only here, but throughout the entire state. In those 14 hours the snow fall reached a depth of over nine inches, and the wind a velocity of 46 miles an hour. In this city traffic of every kind, as well as wire communication, was crippled. The suburban lines were brought to a complete standstill, with the roads piled high with drifted snow. The three masted schooner Pardon G. Thompson dragged her anchors in the gale and went ashore at Sassafras Point, and a sloop yacht which was anchored near her was sunk. Several tugs and barges were lost.

Rossevelt Stalled at New London. NEW LONDON, Conn., Nov. 28.-The depot in this city was the scene of unusual activity last night on account of the several trains stalled here. The postal and Adams express train put in here at 2:50 yesterday afternoon, 12 hours late, being held at Groton on account of a freight wreck at the Water street yards. That train was followed soon afterward by the "Owl" train, which was run in two sections, but both the trains were held here on account of another freight wreck near Saybrook. Among the passengers on the stalled trains were five theatrical troupes, and also Colonel Theodore Roosevelt, who lectured in Boston Saturday night.

Hudson River Craft Ashore.

POUGHKEEPSIE, N. Y., Nov. 28.-The blizzard extended over the whole Hudson river section and is the earliest storm of its magnitude that has occurred in a good many winters. The storm played havor with the shipping on the river. Between Poughkeepsie and New York fully 39 vessels, all of them small craft, were driven ashore by the wind and heavy sea. At this city a clamboat owned by Captain Seeley of New Jersey, a coal barge and a schooner were sunk but no loss of life is reported. The big night boat Daniel Drew went ashore near Coxsackie, but sustained no damthe Commonwealth flats, between the age and afterward landed her passengers at Stockport, Six inches of snow fell on the level, and in some places it is drifted five feet high.

Three Masted Vessel Wrecked. SWAMPSCOTT, Mass., Nov. 28.-The

wind and snow storm, which in proportion to the damage wrought nearly equals any blizzard in late years, had not abated in its intensity last night. A message from Palmer's Beach says that a three master is ashore, and several fishing boats went to pieces on the rocks off Fisherman's beach. Two hundred feet of stone sea wall, 20 feet high and some three feet in thickness: on Kings' beach, which for 20 years has been safe confinement to the high seas, was washed away.

Damage at Newburyport.

NEWBURYPORT, Mass., Nov. 28.-The bl zzard of Saturday night and yesterday wrecked wharfs and public buildings, and about 50 small boats have been smashed while sections of the sea wall are washed away. The barge Atlantic, with 250 tons of coal, sunk at the wharf, and the schooner Newell E. Hawes of Boston sunk at Plum Island Print The crew of five men were taken off by the Plum island life saving crew in the breeches buny. The wind reached a velocity of 55 miles an hour.

Sea Wall at Lynn Demolished.

LYNN, Mass, Nov. 28.-The principal feature of the blizzard here vesterday was the tremendous tide, which, blown by the heavy northeast gale, reached a point that has not been attained since 1551. The entire sea wall at Humphrey str et, bui't of granite, was almost compl tely demolshed, and 15 or 20 dories anchored off shore were blown ashore and smished to pieces. The Bangor express arrived from the east yesterday forenoon, but was still here this morn-

The Storm In Hartford.

HARTFORD, Nov. 28.-The storm in this city is the heaviest known since the blizzard of 1888 The snow is about two feet on a level and is drifted bad y. | Trains on the New York, New Haven and Hartford railroad were much delayed. The 11 o'clock train from New York Saturday night reached here at 4 yesterday atternoon, 11 hours behind time. Trolley travel was entirely suspended yesterday.

Henry Snowfall In New York. NEW YORK, Nov. 28 - Eighteen inches of snow fell in this city Saturday night and yesterday morning. Trolley and other suburban lines were blocked until noon yesterday. On Staten Island all railroad lines were blocked until late last night. Two people were lost in the storm and were frozen to death. Ships in the harbor suffered no damage

Ashore at Belfast.

BELFAST, Me., Nov. 28-A northensterly blizzard raged in this section all day yesterday. Thice vessels are reported ashore at Fert Point, on the Penobscot river 12 m les from Belfast, and It is feared shipping has also sustained other lesses.

NOT PROTEST.

Report That Spain Will Sign Without a Murmur.

THE INSTRUCTIONS AGREED UPON.

This Afternoon Will Probably End Negotiations - Spanish Decision Approved by Madrid Politiclass and Financiers.

LONDON, Nov. 28 .- The Paris correspondent of The Times says: "It may be regarded that Spain will accept the American conditions and sign the treaty, perhaps even without a protest. Thus her colonial empire will disappear forever, and the day is not far distant when the patrimony of the United States accruing to them under prosperity from exploiting the islands with good administration will have increased to fourfold the sum total of the terrible war indemnity France paid Germany."

The Madrid correspondent of The Standard savs:

"The cabinet has concluded that the wisest policy is to accept the American terms, leaving to the Spanish commissioners full power to secure the best possible indemnity and to place on record, if the American commissioners will permit, a protest against the American interpretation of the protocol as affecting the Philippines and against the peace conditions generally.

"The decision of the cabinet is approved in political and financial circles. I understand, however, that the deliberations of the ministers were very protracted. Senor Segasta, Duke Almodovar de Rio and Senor Puigcerver had great difficulty in inducing some of their colleagues to accept the small indemnity. Undoubtedly the situation is hard and critical, but ministers say Senor Sagasta is determined to confront all opposition until the cortes is convoked, probably at the end of December, when he will demand a vote of confidence, virtually implying approval of the treaty and the conservatism of his party."

The Times in an editorial this morning in praise of the foresight of the United States government in increasing the army says:

"Looking to immediate needs, Mr. Alger's estimate of 100,000 is below rather than above the mark, for considerable forces will be required to bring the new populations into subjection of the state of the state

Instructions Agreed Upon.

DON CARLOS PREPARED.

Pretender Said to Have Plenty of Money.

LONDON, Nov. 28 .-- An English Carlist positively asserts that Don Carlos' army will take the field in Spain soon after the treaty of peace is signed. He declares that a loan has been fully financed and that it is divided equally between France and England, and he adds that after the English capitalists were shown the evidences on which Don-Carlos' chances of success are based they offered several times the amount asked. Finally, the English Carlist asserts, much more money would have been secured had it not been for the fact that Don Carlos stipulated that there should be no assistance from Jews, as he is apprehensive of their ob-

Continuing, it was asserted that the Spanish government has known for some time that Don Carlos possessed an army, organized into battalions and hat eries, officered and largely armed. But the Spanish ministers counted on his failure to secure funds. Therefore, the Spanish government is said to be panic stricken and to be endeavoring to make the Spaniards believe that Great Britain has agreed to finance Don Carlos and that he in return has undertaken to cede the Canary islands to Great Britain in the event of success.

Prairie Fires In Oklahoma. ST. LOUIS, Nov 28-A special to The

Republic from Perry, O. T., says prairie fires have played havoc in Oklahoma and the Indian territory for the last few days. One farmer lost 1 000 acres of fine hay in the field, several hundred bales of cotton and 500 head of cattle and hogs. He estimates his loss at \$20,-000. Millions of tons of hay in bale and bulk have been burned in other sections, and no less than 100 residences have been destroyed. Several lives have been lost in these prairie fires. In the Klowa Indian reservation a strip of land 30 by 5 miles was burned.

Fire In Springfield, Mass.

SPRINGFIELD, Mass., Nov. 28.-Fire in the Olmstead building on Main street during the heavy gale yesterday did \$15 000 damage to building and tenants. There was a panic among the guesis in the Cty hotel adjoining but the only damage sustained was by water and | bottles. 4moke.

LYMAN ABBOTT RESIGNS.

Failing Health the Reason For Min Action.

NEW YORK, Nov. 28 .- Dr. Lyman Abbott, pastor of Plymouth church, Brooklyn, Henry Ward Beecher's successor and one of the leading preachers of the century, resigned his charge yesterday morning.

Burprise and grief were displayed by the small congregation which braves the snow to hear the great preacher's

morning sermon. When Dr. Abbott first stood to

Beecher's shoes, 11 years ago, there were many who felt that he must suffer by comparison. Confirmed as paster, he brought to the famous pulpit a breadth of thought and a wealth of oratory and fervor which maintained Plymouth in its old and proud position as one of the noted Christian temples the world.

His first sentences in reference to his resignation yesterday morning were scarcely understood by the congregation, so unexpected was such an event, and it was not until he had proceeded for some minutes that all realized the full gravity of what he was saying. Men and women looked at one another for confirmation and then for sympathy. Sobbing was heard, and when the preacher had concluded his hearers sat

silent in their grief. Dr. Abbott had been speaking of the church of Christ, which, he said, remained unchanged throughout the ages, whether it was the church of Augustine, Calvin or Beecher, and turned from that subject to say:

"I have been reluctant-God knows only how reluctant-to tell you that the time has come when I must lay aside the leadership of the church and take the place of a private in the ranks."

He then read a letter of resignation. in which he reviewed his appointment to the pastorate in May, 1888, at the time that he was the editor of The-Christian Union. He said the congregation and his editorial associates sincethen had relieved him of details, but the responsibility of both fields had increased. The letter concluded as fol-

"The activities of Plymouth church have grown somewhat greater and materially more complex. There are great advantages in preaching in a pulpit to which past history has given a national character, but he who occupies such 🛦 pulpit cannot escape the obligations involved in the fact that his utterances are always liable to be reported far and wide and taken as an expression not only of the church, but of that unorganized party of progress with which this church has always been associated. The obligations involved in the editorial office have increased even more.

"I have endeavored to avoid the inevitable conclusion. Perhaps I should still have hesitated and delayed had not a warning been given me this fall which scarcely needed the doctor's interpretation. He tells me frankly that I am using up vital energies faster than nature supplies them. He imperatively declares that I must prepare to discontinue the attempt and leaves me no option but to withdraw from the pastoral work and devote myself to the equally responsible but quieter work of the pen.

"I have therefore no choice but to resign into your hands the office with which for these ten years you have honored me."

The Wisconsin Launched.

SAN FRANCISCO, Nov. 28 .- The battleship Wisconsin was successfully launched Saturday. When the big vessel slid down the ways the warships in the harbor fired salutes, and there was a terrific din from the steam whistles. The controversy over the kind of wine to be used in naming her was settled by the use of two bottles of champagne, one of French make, provided by the Wisconsin committee, and another of California vintage, provided by the Union Iron works Miss Lucile Gage, daughter of Governor Elect Gage, pressed the button which launched the ship, and M ss Elizabeth Stevenson broke the

C. W. COULDOUR DEAD. of the Veterans of the American

NEW YORK, Nov. 28 .- Charles Walter Couldock, the actor, died at the home of his son, 116 East Ninety-third etrect, last night at a quarter to 10 e'clock from dropsy of the heart. He was 84 years old.

Mr. Couldock had been ill for the last two weeks, but owing to his strong constitution his death was not expected. Until a half hour before his death he memed in good spirits. Yesterday afternoon his physicians, Drs. Brockway of 50 East One Hundred and Twentysixth street and Dr. Brown of 152 West Forty-fifth street, said he was improv-

the. The end came suddenly. Charles W. Couldock in his life playmany parts, for his career on the stage extended over 60 years. He was one of the veterans of the American

He played with Macready, Kean, Mme. Vestris, Charles Matthews, Buckstone, Charlotte Cushman and other

prominent stars.

His first appearance before an Amercan audience was made at the old Broadway theater, near Worth street, this city, on Oct. 8, 1849, he playing the Stranger to Miss Cushman's Mrs. Haller. During that engagement he played, among other roles, Jacques, Macbeth, Cardinal Wolsey, Othello and King Lear. He was engaged at Laura Keene's theater in this city in 1858 and there played with Joseph Jefferson and the nte E. A. Sothern.

With the younger generation of thester goers his name has been inseparably connected with the role of Dunstan Kirke, the blind miller, in "Hazel Kirke." He first appeared in the character in 1879, and altogether played it more than 1,500 times. His last appearance on the stage was in that character at the Star theater last September.

THE PICQUART TRIAL. Dupuy Will Decline to Permit Postponement.

PARIS, Nov. 28. There was a renewal yesterday of the conferences between the premier, M. Dupuy; the minster for war, M. de Freycinet, and the minister of fustice, M. Lebret, and members of both chambers regarding the request of the committee of Leftist senators for a postponement until after the decision of the court of cassation Colonel Picquart, charged with revealing important military documents to his counsel.

As a result of the conferences it is understood that M. Dupuy will decline to postpone the Picquart court martial. His decision will be announced in the chamber of deputies today.

Yesterday afternoon M. Dupuy had several conversations with M. de Freyeinet at the offices of the ministry of war. He is supposed to have gone there to inspect certain documents, only obtainable at the war office, in connec-**Won with the Dreyfus case.**

General Zurlinden, military governor of Paris, in an official note repudiates the insinuation that his decision to send Colonel Picquart for trial by court martial was prompted or suggested by President Faure.

Le Soir asserts that the Picquart dossier contains "new and unanswerable proofs of the guilt of Dreyfus."

Le Jour, in a sensational article, declares that the secret dossier constitutes the only real proof of Dreyfus' guilt. It gives details, in a circumstantial manner, as to the documents in the package and promises further revelations.

STEAMER BLOWN UP

Six People Killed In Accident Near Stockton, Cal.

ELEVEN ARE DANGEROUSLY INJURED.

Fifteen or Twenty More or Less Budly Hurt - Passengers In Bed When Explosion Occurred-Members of Crew Roasted Alive,

STOCKTON, Cal., Nov. 28.—The most disastrous river accident in the history of Stockton occurred yesterday near Fourteen Mile slough, when a part of one of the boilers of the river steamer T. C. Walker, which left San Francisco about 6 o'clock last night, was blown out, killing 6 and dangerously wounding 11 persons, while probably 15 of 20 were more or less badly hurt. The T. C. Walker is owned by the California Navigation and Improvement company and ran between San Francisco and Stockton."

The dead are John Tulan, captain of the T. C. Walker; T. C. Blunt; the agent in charge of the shipping of sugar beets from the Moss tract to the Crockett factory; Watson Henry, engineer for the T. C. Walker, Stockton; Mrs. Henry, wife of the chief engineer. Jerry Daly, fireman, and Ferdinand Lau, passenger; of Seattle.

The wounded are: G. P. Smith, a native of Massachusetts, dack hand, burned about the face and body; James Corcoran, deck hand, will probably die; Jack Holberg, known as Jack Sperry watchman, injured in head and scalded ever entire upper part of body; Cobatti Dominici, deck hand, scalded about hands and face and back injured; John Burns, deck hand, burned about head; G. Foppiano of San Francisco, passenger, injured in the face and breast; Edward Paul Jones, stevedore, scalded about face and hands: Martin McCaffery of San Francisco, deck hand, burned about the head and body; Louis Drizzolino of San Francisco, wine merchant, badly injured; John Figoni of Stockton, deck hand, head cut and

back hurt. The majority of the passengers were in bed when the explosion occurred and were awakened by the report, which was as loud as a cannon's roar. People the Dreyfus affair of the trial of rushed from their rooms in their nightclothes. The whole forward portion of the steamer's upper works was blown away. The electric lights had been put out, and the escaping steam enveloped the front portion of the boat till it was impossible to see how much of the boat had been carried away.

The screams of the men who were locked in their rooms near the pilot house were heartrending. Captain John Tulan had been blown from his bed against the door of the stateroom and so seriously injured that he could not move. The door could not be forced open, as he was jammed against it. One of the employees of the boat secured an ax and cut the upper part of the door away and finally removed him, but not until he was virtually roasted alive. When pulled out, the flesh dropped from his bones in large pieces.

Watson Henry, the chief engineer and his wife were in their room near the pilot house when the explosion occurred. Mrs. Henry was blown a distance of 20 feet to the bow of the boat. She was badly crushed and so badly scalded with escaping steam that her injuries proved fatal at 12:30 this afternoon.' Mr. Henry was badly scalded. He was thrown some distance, but not after being-brought to the city. Jerry Daly, the fireman, was in the

fire hold of the boat when the accident occurred. The escaping steam completely enveloped him, scarcely a portion of his body escaping the scorching vapor. He died at the receiving hospital at 12:45 yesterday afternoon.

WHEN MINDS ARE BRIGHTEST.

Bacon's greatest work took 59 years to mature and Grote's "History of Greece" some few years longer.

Darwin's "Origin of Species" was evolved by the philosopher when he had seached his balf-century and his "Descent of Man" when 12 years older. Longfellow wrote "Hiawatha" at 48

and Oliver Wendell Holmes gave us "Songs in Many Keya" when he had passed his fifty-fifth birthday. George Elios was near her fiftieth year when she wrote "Middlemarch"

and this was succeeded by that powerful book, "Daniel Deronda," Milton's mind rose to its highest capacity when the blind poet was between

54 and 59. It was at this period of his existence when he offered to the world Paradise Lost." Cowper had turned the half-century

when he wrote "The Task" and "John Gilpin" and Defoe was within two years of 60 when he published his wonderful "Robinson Crusoe." Sir Walter Scott was 44 when his

"Waverly" made its appearance and rearly all those stories which have conferred lasting fame upon him were composed after the age of 46. Every reader and history critic will

edmit that of all Thomas Hood's works the two which stand preeminent are "The Song of the Shirt" and "The Bridge of Sighs." Yet these were written at the age of 46. Research proves that the human mind

is at its fullest power between the ages of 40 and 60. Swift was 59 when his train gave birth to "Gulliver's Travels" and John Stuart Mill 56 when his essay on "Utilitarianism" was published, although his "Liberty" was written three years previously.

of Faud. Every living thing, plant or animal, contains within itself the germs of certain

decay and death. In the human body these germs of discase and death (called by scientists Promaines,) are usually the result of imperfect digestion of food; the result of indigestion or dyspensia.

The stomach, from abuse or weakness, does no promptly and thoroughly digest the food. The result is a heavy, sodden mass which forments (the first process of decay) poisoning the blood, making it thin, weak and lacking in red corpuscies; possioning the brain causing headaches and pain in the eyes.

Bad digestion irritates the heart, causing palpication and flually beinging on disease of this very important organ. Poor digestion poisons the kidneys

eausing Bright's disease and diabetes. And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves

and muddy complexion. The great English scientist, Haxley, said the best start in life is a sound gromach. Weak stomachs fail to digest food prroperly, because they lack the proper quantity or digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy in all cames of indigestion, is to take after each meal, one or two or Stuart's Dyspepsia l'ablets, because they supply in a pi-asaut, barmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will care every form of stomach trouble except causer of the stomach.

They increase firsh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from whelesome food well digested.

A CHRISTMAS EVE TRADITION. The Ozon Knelt at Midnight on the Aspaverary of the savier's Mirib. From the Honesdaie Herald.

The good, garrulous grandmothers and aunties of us older folls are all dead and gone and have seemingly left no successors to their best talent. Their silvery heads were the sepositories of all the charming traditions of the past relating to the unseen world about us. and they were chiefly valued by the more dreamy-eyed youngsters for the marvelone tales they could tell of fairies, hobgoblins and other such uncanny beings. The threats and thunderings from the pulpits of those days were generally enough to fill the young souls with horror, but the stories told around the firside on windy, winter nights to wideeyed children related in the main to the better natures of these intangible beings. It seemed as if those those aged relatives were the only connecting links between the prossic world about us and the world of romance and fairies.

We are reminded of all this by an incident which occurred down at the alms house a few years ago, and which was just brought to our mind by one who youches for its absolute truth and in whom we have the greatest confidence.

A party of young people were at the "House" on Christmas Eve, when the old tradition of the oxed kneeling at midsight upon the anniversary of the Savior's birth was mentioned. Now there was a yoke of oxen in the barn, and some one suggested that as it was Chris mus Eve and near the witching hour the cattle should be watched. A lantern was procured, and two or three of the more venturesome weat out to the barn and awaited, time-piece in hand,for the coming of midnight. The handsome beasts turned their wondering eyes upon their late-coming, strange-acting visitors, but continued chewing their ends of contentment as usual. As the minute hand slowly ticked around to twelve, the breathless intruders on the borders of the spirit land, who half believed the old superstition, grew more and more excited. The frosty breaths of Buck and Bright dimmed the flickering lamp and seemed to throw a halo over them. At last tie minute hand was cro-sing the hour hand at twelve. One moment of seapense, and the watchers were wondrously startled by seeing the two oxen drop upon their knees while standing upon their under feet

What strange and glorious sights they saw, and what entrancing sounds they heard-these race descendents of the stable of Bethlehem-Juring their sojourn upon their knees no one will ever know. Perhaps they saw the star the shepherds followed; perhaps they beard heavenly harps, thrilled by augelic fingers! Who knows? They remained in this position for a few moments and then arose and shewed their cues as placidly as before. Those people will have one fairy story, at least, to tell their grandchildren.

TESTING A FAST LOCOMOTIVE.

Practical Tests of a New Steam Cylinder Regulator on a Past Locompiler,

The Eric Railroad Company is testing a new sieum cylinder regulator on one of the fastest locomotives in the country. The tests are being made in a peculiar way. Hundreds of people who have seen engine 469 pass over this division during the past week with a big canvas shield fastened to the front have wond red at

This engine was made at the Cooke Loc motive Works and has three cylinders, one big and two compound. Recently it made the fastest time between New York and Port Jervis, covering every mile in less than a minute. The Eris engineers have an invention which they claim will increase the speed of this locomotive. It is now being tested while the engine is rouning at full speed. The canvas shield has been constructed to prevent the men watching the test from being blown off by the wind or falling off while at work. A lew days ago 469 went through Paterson at forty miles in bour, with two men nailing the canvas to the wooden frame on the front.

To Venture on Peach Growing, From the Warwick Advet 1-er.

The peach crop the past year has been very invorable. It is said that several farmers around Amity and Pine Island have made from \$1 000 to \$8,000 clear from peaches this year. One man is said to have sold \$1,000 worth of peaches from less than 200 trees, and another is reported to have sold \$10,000 worth from less than 1 900 trees. The fact that several have made such good profits in neach growing has naturally caused many more to turn their attention to the same branch of farm industry, and as a consequence we hear of many who are setting out new orchards, or preparing ground this full for planting the trees next spring.

The 105th Separate Company had already moved in the matter of welcoming the returning so diera, but Mayor Odell thinks that the whole city should share in the reception.

Middletown might take a hint from this and start a movement to fittingly welcome its soldiers.

The Flagship New York Cader Way Firing Braadsides at f abanas.

There is no vessel in the U.S. Navy so popular and so well known as the armored cruiser New York. In this picture the smoke is pouring from the stacks and the prow, throwing the water in a white apray on either side, leaves a beautuul wake to mark her course. In the background are the forts and shores of Cobanas. As this floating fort of steel and iron comes apparently in direct range of the Spanish fort she "lets go" with all ber side guns, and the scene ione of awful grandeur as the fi. ht progresses. ARMY AND NAVY ART CALENDAR

Pleasing and Beautiful ventiments of Witters Life Arithmenly liberrated-A Timely Cit.

The exquisite production, "The Army and Navy Art Calenda,," in colora from the bresh of the famous artist, Francis Day, which Armour & Co., of Chicago, have just brought out, is a souvenir which will be highly prized by those who will take this opportunity to procure it. The scenes depicted are "Sweet Moments," showing a winsome maiden pinning a bunch of flowers in her soldier boy's coat; another a Red Cross nurse laughingly holding back from the wounded the letter from home he is so engerly expecting; in the third "A Great Treat," a lady is lighting a soldier's cigar for bini; in "Must It Bo Good-Bre," the lovely girl in yellow evening dress, with head bent over the nack of a chair, suffer ing the pangs of parting, is vainly trying to sum up courage to bid her loved "God Frank Kilgour, of Passaic, and John | Speed." The next picture shows a sailor lad and a laughing lass "Taking His Last Chaim"-a big jack guife. The sixth and last "The New Recruit," who has stolen a cap and sword of her admirer, is seen going through the army maboeuvers.

The calendar consists of six 10x12 sheets bound with red, white and blue rilk ribbons, and is sent by Armour & Company, Chicago, to any address on receipt of six 2 cent stamps to cover mailing and postage.

An English stotistician has figured it out that English workmen last year, lost in wages as a result of strikes and lockouts not less than £12,000,000 or \$60,-000,000. This enormous sum would bave been a very heavy price for workmen to pay for whatever advantages they gained by strikes, even if they had won their point in every contest and in many of them they were losers.

SPANISH PEACE COMMISSIONERS formally Accept American Conditions Announcing that spain Yields to the Power of the Victor.

BY ANNOCIATED PRESS

Pams, Nov. 28-The joint peace commission met promptly at 2 o'clock, this atternoon, and the Spanish comm saloners immediately announced their acceptance of American demands.

The Spanish commissioners aunounced that being authorized by their government to reply that the American propositious are madmissable on legal principals, and that they are not a proper com romise on legal principles, on the Spameh part all diplomatic resources are exhausted and the Spanish commission is now asked to accept or reject the propositions. Spain, inspired by reasons of patriotism and humanity and to avoid further horrors of war, resigns herself to the power of the victor. She accepts the offered conditions in order to conclude a treaty of peace.

The Spanish acceptance was made verbally. A written acceptance will be presented later.

The American demands included the acquisition of the whole of the Philippines and the Salu groupe for \$20,000,-000, and it is also understood the United States will purchase the Caroline group. The ques ion of the debt of Cuba was left unsettled. The next meeting takes place Wednesday.

The answer of the Spaniards was so short that less than ten minutes were consumed in rendering it into English for the Americans. Spain's reply was as given above with the added statement that Spain had, throughout the controversy, the strongest argument, and that between positions so diametrically opposed, the American offer of \$20,000,-000 was not a fair sum; nevertheless Spain d sired to avoid any further effusion of blood and further disorder, and

The secretary was empowered to prepare treaty articles, embodying the cession of Cuba, Porto Rico and the Philippine Islands and the payment by the United States of \$20,00 ,000, for submission to the meeting which will be taste and good judgment. held Wednesday next.

Stomach Was Too Weak to Retain Food

A Complete Cure Effected by Hood's Sarsaparilla

Now Enjoying the Best of Health, With Digestion Perfect.

"My mother was subject to sick headaches and indigestion for over a year. She was unable to stand for any length of time, and was obliged to stay in a dark room as she could not bear the light. She had no appetite whatever and her stomach was so weak she could not retain what food she did eat. She also had severe pains in her head. She suffered so much that she became but the shadow of herself. One day I happened to read a testimonial about Hood's Sarsaparilla. It

Sounded So Truthful

I persuaded her to try this medicine. Before finishing the first bottle there was an improvement in her condition. She no longer threw up her food and her headache was not as severe. She took in all four bottles of Hood's Sarsaparilla and several boxes of Hood's Pills and regained her weight. She is now enjoying the best of health. Her direction is good and she can eat almost anything she wishes. She is 42 years old and rays she feels as well as when she was 16. Hood's Sarecparilia made a complete cure in her case." In 1867 the deceased married Sarab C., daughter of C. C. Hegeman, who lived in the northern part of the State. She survives him with one son, Benjamin F. Chadsey, who formerly conducted a law

offices of cornner, assessor, excise commissioner and postmaster.

Ramuel Lipicid. Samuel Lipfeld, one of Middletown's best known, most successful and univer-

antly respected business men, died at 7:30 o'clock, Sunday evening, at his home on West Mam street, aged fifty-six Neurs and seven months. He was taken nick September 17th, and his silment was diagnosed as malarial lever. He soon improved as I was able to be out, but three weeks neo he suffered a relapse and his subdition soon burness so eritical that the greatest fear was bit as

to the outcome. As the days passed there was little change for better or worse until last week, when new as mptoms appeared, showing that the lever

was being complicated by other ailments. The immediate cause of death is given as acute nephritis.

Mr Lipfeld was born in Berlin, and came to this country in 1866. Soon after arriving in New York he came to this county and began his business life in Warwick, where he engaged in the clothing and gents' furnishing goods trade. His business methods were most honorable, and as a consequence his trade rapidly increased. In 1879, seeking a larger field than Warwick afforded, he removed to this city, and in partnership with his brother-in-law, Adolph Budwig, under the firm name of Lipfeld & Budwig, opened a clothing store in the Deuten building, corner of West Main and North streets. This partnership continued for several years, and when Mr. Budwig withdrew from the firm to engage in business on his own

count. When the affairs of the Middletown bank were being wound up he purchased the "post office building," when it was offered at auction, and after refitting it in handsome style removed to it. With the exception of a few months when he was in Europe and the business was in charge of his oldest son, he has continued in business there up to the present time.

account, Mr. Lipfeld continued the

business at the old stand on his own ac-

Mr. Lipfeld was a very successful business man and had accumulated a very saug fortune. His success in trade was due to strict adherence to honorable. methods. He treated all bis costomers with conscientious fairness, and those who patronized him once always returned to his store, and it may be of interest to note that after he left Warwick and established himself in this city. scores of residents of that village and its vicinity followed bian here to do their trading at his store. Mr. Lipield had exalted ideas of commercial integrity and valued his business reputation far more than he did money, and it is recalled to his credit that although not legally responsible for a dollar of indebtedness incurred while his store was under other management, he drew upon his private fertune and paid every dellar of debt that had been incurred in the name of Lipfeld. He leaves to bis family a beritage richer than wealth,—the record of a business and private life unmarred by a single disbonorable act.

Mr. Lipfeld married Jennie Scharps, of Newburgh, who survives him. For children also survive: Isaac, Gerson, Abram and Hannah. The two former are employed in the store here and Abram is a member of the senior class of Hamilton College. A caughter, Pauline, died in infancy about twenty years ago. A brother, Levi, in New York city, is

the only other immediate relative. Mr. Lipfeld was essentially domestic in his tastes and he cared nothing for society or civic honors. The only office that he held in this city was the vice presidency of Waalkill Hose Company, to which he was chosen when the company was organized and to which he was reelected for a number of terms.

Mr. Lipfeld while a resident of Warwick, became a member of the Masonic Lodge of that village, and he retained his membership after removing to this city. He will be buried with Masonic honors.

The death of such a man as Mr. Lipfeld is a public loss. He was actively identified with Middletown's interests for many years and was so prominent a factor in the city's business life that be will be missed and most sincerely mourned by many outside of his own family circle.

Marie Wainright, Fo-night,

Marie Walaright will appear at the Casmo, to-night, in "Shall We Forgive Her," a new play that has met with considerable favor in other cities. In a word, the story is one of quiet strength and pathos. The heroine is a woman who has sinued under extenuating circumstances and who seeks to live a new life, but is hounded by her past. She is finally forgiven, of course, but not before she passes through many trying scenes. The play is the property of Jacob Litt, and with the foresight of a shrewd manager, he engaged Marie Wainright to play the leading role. Miss Wainright's success in another branch of the drama is quite well known. She has lon been a lavorite star.

SINGULAR STATEMENT.

From Mrs. Rank to Mrs. Pinkham.

The following letter to Mrs. Pinkham from Mrs. M. RANK, No. 2,354 East Susquehanna Ave., Philadelphia, Pa., is a remarkable statement of relief from utter discouragement. She

says:
"I never can find words with which to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me.

"Some years ago I had womb trouble and doctored for a long time, not seeing any improvement. At times I would feel well enough, and other times was miserable. So it went on

mind. No one knows what I endured. "I continued this way until the last of February, when I saw in a paper a testimonial of a lady whose case was similar to mine, and who had been cured by Lydia E. Pinkham's Vegetable Compound. I determined to try it, and felt better after the first dose. I continued taking it, and to-day am a well woman, and can say from my heart, 'Thank God for such a medicine.'"

Mrs. Pinkham invites all suffering women to write to her at Lynn, Mass., for advice. All such letters are seen and anawered by women only,

THERE is an engineer on the Illinois Central who is pretty well sitisfied with his lot. It is possible that if "the road" wanted to make him a division superintendent or a vice president he would accept either position, but it would be a difficult matter to anduce him to give up railroading and take up another calling. There was a time, he says, when a good thing might label itself and stare him in the face and he wouldn't know it, but he beheves his perceptions have been considerably sharpened since then.

He was employed as fireman on one of the company's engines more than a year ago, and was known from Rannolph street to Buffalo as "the dude ' As soon as his work was done and he had discarded his bedricking jumper, pale-blue overalls and diurnal accumulation of lubricating oil, sand and coal dust, he proceeded to array himself in fine linen and a \$40 suit of clothes and loaf and invite his soul. He had several of these suits of clothes and a cape evercost besides. Also he had a cornet. whereon he played with some skill, and he loved the drama

Whenever anything of a theatrica nature was under discussion among the zailroad men "the dude fireman' was s. ways appealed to as an authority. He had an easy and familiar way of talking of Alice Neusen, Andy Mack, Sol. Smith Lussell, Nat Goodwin and the rest, and was particularly implessive, and his criticisms were always accepted as final. He was not a man who made fine distinctions, actors were, as he v:ewed them, either "great" or "bum " Nor was he one of those who content themselves with criticising. Even the men who sneered with the greatest bitterness at the cape overcoat were compelled to admit when Jack "spoke a piece" at any of their entertainments that he "spoke it out of sight."

It was not surprising, therefore, that when Lob Chaison, who was sitting smoking in the areman's room, said: 'Jack, you ought to go on the stage." Jack answered: "That's exactly what I am going to do."

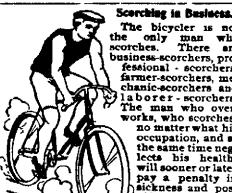

There was an uncomfortable pause for a moment, during which Bob did his best not to look doubtful. At last he said: "Are you going to give up

your job?" "I won't if I can hold it and travel about the country with a troupe," repired Jack, "but they'd have to get another man to do my work and they wouldn't want to pay us both wages, so I suppose I might just about as well

Eight months later the ex-flieman, thin and haggard blue about the upper lip and jowl, shabby in attire and with shoes worn to the quick, was sitting in a room in his friend's flat telling him all

"It was a mighty meteoric career," he said. "I shot athwart the starry firmament in a blaze of glory for just about as long as it would take you to say 'scat,' and then they didn't do a thing to me.

"I went to New York when I quit the road and got in with the Croty-Damiens company. The manager's rame was Croty and his wife's name was Damiens, and he had been dressed down with powderedpumice and hand polished. I want to tell you lile sold me a wardrobe the first thing, and afterward he sold it for me and held out 20 per cert, commission | Croty was about the warmest baby in the bunch, and there was only one bunch. He was going to star me all the time as long as my money held out, and then he shook ine down to third peasant. I saw how it was by that time, but I couldn't help myself for awhile. I hated to go to Playing cornet in the orchestra but it was the only thing there and live seen a whole lot of country and I've traveled an the passes more than I expected to.

The bicycler is not the only man who scorches. There are business-scorchers, professional - scorchers farmer-scorchers, me chanic-scorchers and laborer - scorchers. The man who over-works, who scorches, no matter what his occupation, and at the same time neg-lects his health, will sooner or later pay a penalty in sickness and pos-sibly premature

death. If a man will always watch his health and correct minor irregularities by a resort to the right remedy, he may do a reasonable amount of edy, he may do a reasonable amount of scorching without serious results. Nearly all serious maladies are the result of imperfect nutrition. Imperfect nutrition is just another name for starvation. A man may eat voraciously and still starve. He may put on an eighth of a ton of sickly dabby flesh and have a big, corpulent stomach, and still be starving. He may scorch until he goes to the opposite extreme and gets thin as a fail, and he is still starving. The trouble lies in the fact that no matter how much food is taken it is not properly assimilated. The blood does not receive how much food is taken it is not properly assimilated. The blood does not receive the life-giving elements of the food that build firm, healthy flesh, solid muscle and vibrant nerve fibers. Dr. Pierre's Golden Medical Discovery makes the assimilation perfect. It makes solid, healthy flesh, without raising the weight above Nature's normal. At all medicine stores.

normal. At all medicine stores.

E. M. Seavolt, of No. 427 Sandusky St., Mount Vernon, Knox Co., Ohio, writes: "I can hearthly recommend your 'Golden Medical Discovery' to any one who is troubled with indigestion and tor pud liver: I was that bad it was about chronic with me. All the other medicines could give me no relief; but at last, what came to my relief was that wonderful medicine the 'Golden Medical Discovery.' I could scarcely eat anything—it would put me in terrible distress in my stomach; I had a dull aching and grinding pain in my stomach with pain in my righ side and back, and headache, bad taste in my mouth, at night I was feverish and the soles of my feet burned.

I took four bottles of the 'Discovery' and two vials of the 'Pellets.' I am well and hearty and can eat as well as any body can,—thanks to your 'Discovery.'"

He finally obtained an engagement as a gardener, which he filled for three days, and then he quit at the request of his employer, whose orchids he had pruned close to the root to increase their growth. After this episode he found temporary favor in the eyes of the manager of a wholesale grocery in Wabash avenue, who was taking stock. At the end of the week he received nine dollars and an intimation that his services were no longer needed. That was simply on account of a few purely accidental errors and omissions. He wanted to turn the nine dollars over to his friend and benefactor, but that person, remembering remorsefully that he had suggested the dramatic career, refused to accept the

Baturday night's snow storm and Sunday's gale, which filled the air with flying snow, gave us a taste of real winter weather, but Middletown and its immediate vicinity fared very much better than New York and other places on the coast and the section north and west of

Middletogra seems to have been on the outskirts of two storms, a coaster, which baried New York deeply in snow, and a storm from the west, which spent its force before reaching here.

Had it not been for the high wind which began to blow, Saturday evening, and which sent the snow swirling before at, and Sunday's gale, which avept every exposed spot bare, the storm would hardly be worth more than passing mention, for the snowfall was insignificant, not over three inches having tallen.

The electric road was bothered considerably, but the management is entitled to credit for maintaining as good a ser-Variation Anticipating trouble Supermissident Bock got out the snow pio . Saturday evening, and kept it rossing nearly all night. The result was that the time was kept open, and although the cars could not run on schedwhe time the service in the city was fairly good. The dritting of the snow into the cuts on the hoe between becaud Goshen caused the cars considerable trouble, and it was necessary to send the plow over this part of the line, Sanday afternoon, to tree a car which had become stalled. After that there was no more trouble suand the evening, when the snow in a switch at Midway Park caused a car to jump the tracks. Superintendent Rock and a force of men got it on the rails again in about balt an nour.

Dr. M. C. Ashley, assistant surgeon of the First Regiment, arrived here from Honolulu, on Eric No. 8, Saunday night. The heavy snow d layed the tenin and it did not reach here until 11:30 p.m., over five hours late. Dr. Ashley was accompanied by friends who went to Fort Jervis to meet him. He was able to walk off the train, carrying this grap, and after a few harried hardshakes he was taken in charge by Dr. Komey and accompanied by Mrs. Ashley was driven to the state Hospital.

To-day he is comportable, but far from being well. He will remain in retirement for several days under the care of Dr. Tulcot and his assistants.

Dr. Ashley was almost carried on the ship at Honolulu, but after being out three days recovered strength and weight capidly. He came home unattended.

Broke into a Station to Get Marm.

John Washer, who formerly lived at the Summit, and who has a police court reputation not to be envied, was found methe O. and W.'s Main street station, Sunday night, with indications that he had broken in to get warm. He was locked up.

He was fined \$3.50 which he paid, this morning.
